

SOUTHERN LEYTE

SOUTHERN LEYTE - DIVING WITH WHALE SHARKS

MARCH TO MAY - 6 NIGHTS / 7 DAYS

Sogod Bay is world famous for sightings of whale sharks. These enormous filter feeders arrive here each year to feed on the swarms of plankton that bloom in the warm shallow waters. The area is perfect for both scuba diving and snorkelling. As well as whalesharks, the reefs around the bays of Southern Leyte & Limasawa Island are a haven for numerous fish species, whilst beneath the piers of Padre Burgos & Limasawa are a whole host of weird and wonderful macro creatures.

Getting there: The South Visayas and Southern Leyte trips all start and end on Mactan Island which is reached via Cebu international airport, where you will be transferred to the boat.

NOTE: Liveaboard itineraries can change without notice. The itinerary will depend on several factors including, but not limited to, weather, diving ability of guests & the number of other boats already present at the various dive sites. All dive sites visited are subject to weather conditions and are at the discretion of your dive guides and vessel captain.
