

Typical 7-night itinerary – Musandam Peninsula (northern Oman)

Diving in the Musandam Peninsula is characterised by towering underwater cliffs, vibrant soft corals, and an abundance of marine life drawn in by nutrient-rich currents from the Strait of Hormuz. Divers can expect to encounter schools of fusiliers, snappers and barracuda swirling around the reef, along with frequent sightings of stingrays, leopard sharks and turtles. It's also possible to see Whale Sharks here. Caves and overhangs provide shelter for moray eels and cuttlefish, while macro enthusiasts can spot nudibranchs, scorpionfish, and shrimp nestled in the coral.

The Vision offers 7-night trips with 6 days of diving in this stunning region.

Itineraries normally allow up to three dives per day: the third dive can be either a night dive or a regular day dive, depending on guest preference and instructor recommendations. No dives are conducted on the first and last day of the trip. This schedule allows for a total of 18 dives per trip (6 days × 3 dives per day).

Trip schedule:

- The closest airport is Dubai airport
- Pickup time at the airport is according to your flights
- You will be met by boat staff who will take you directly to the boat at Dibba Albaya Port in Musandam
- The drive takes approximately 2 hours, depending on traffic
- The boat departs Musandam the following morning
- At the end of the trip, your last dives will normally be on the day before you disembark but you must ensure you respect the 24 hour no-fly time after your last dive. We can arrange an overnight stay in a hotel in Dubai if required.
- The boat docks back at Dibba Albaya Port in Musandam and check out / disembarkation follows breakfast.

Schedule:

Day 1: Transfer from your flight to the yacht at the port in Musandam, welcome briefing.

Day 2: First diving day – e.g., at “Shesah” (coral gardens, vibrant reef life) with 3 dives including optional night dive.

Day 3: Dive at “Ras Musandam” – steep walls, good pelagic potential. Evening sail to remote bay for night dive.

Day 4: Continue diving along fjords/coast in the Musandam region; visit remote village (e.g., Kumzar) by boat in the evening.

Day 5: Dive at “Al Hablayn” – varied terrain (rocks, slopes, sand), maybe strong currents. Then move to a beautiful bay (e.g., Qabal) for overnight.

Day 6: Dive at “Ras Marovi” – rich biodiversity, macro & rays, possible night dive.

Day 7: Dive at “Lima Island” – coral slopes, schools of fish, rays, macro. Afternoon sail to tranquil bay (e.g., Sanat Bay) for relaxation.

Day 8: Final breakfast onboard, check-out and transfer back to the airport.
